Legal Contexts Series

As part of our continued partnership with the Society of Personality Assessment (SPA), the AP-LS Practice Committee is happy to announce a new webinar series that SPA has created where AP-LS members will receive the member rate.

This new webinar series is based on many of the articles in the Journal of Personality Assessment special issue regarding Personality Assessment in Legal Contexts. This special issue (whose articles are all open access) addressed a major gap in the literature by providing comprehensive, credible reviews of the psychometric evidence for and legal status of some of the most commonly-used psychological and personality assessment measures used in forensic evaluations. This webinar series expands on these articles and is an opportunity to engage with some of the authors of many of the articles.

In addition to the member rate for the series, this partnership affords all AP-LS members the opportunity to earn 1 FREE CE credit for viewing the Introduction Overview of this webinar series. More information about the series and the ability to access the complimentary Introduction Overview can be found on the series website: https://www.personality.org/personality-assessment-in-legal-context-introduction-to-the-special-

To learn more about each individual online training click on the learn more buttons next to each training.
